Measure: SB5506

Pathway Enterprises, Inc. supports 60+ DSP's. Please support POP 132 which will allow them a liveable wage that will support their families. A liveable wage is a win-win..People can afford to live, AND due to having less stress, they are able to enjoy their work and have greater longevity. People with disabilities have given testimony that they want long-term reliable staff who enjoy their jobs. Supporting POP 132 will help this effort and create a workforce who are happy to come to work and focus on the people they support, not on whether they have enough money for rent, food, gas, or day care. Thank you for your support
