

Submitter: Dana Estensen
On Behalf Of:
Committee: Senate Committee On Rules
Measure: SB85

Please oppose SB 85-4.

Oregon's CAFOs already have high regulatory standards in place which are governed by the Oregon Department of Agriculture. SB 85 and -4 amendment would impose unnecessary regulations and restrictions on an industry that already provides high quality care for their animals as well as sustainable stewardship of the environment. Oregon CAFOs are valuable members of our communities and should be treated as such.

Consumers want to purchase safe, local food at reasonable prices but keeping local food production as a viable business would be challenged by the regulations (not based on scientific facts) proposed by SB 85-4.

I urge you to Vote No On SB 85-4. Thank you.
