

Submitter: Arline Simmons

On Behalf Of:

Committee: House Committee On Rules

Measure: HB3414

As a life long resident of Portland, OR I implore you not to pass this bill as long as the variances allowed in section 2 remain. There are ways to provide more housing without throwing away the environmental protections in place to ensure healthy environments for the people and wildlife of those communities. Yes we need more affordable housing, but developers also need oversight to provide affordable, sustainable and healthy living environments. Thank you,
