

Submitter: Debora Lewis

On Behalf Of:

Committee: House Committee On Rules

Measure: HB3414

I oppose this legislation because it would give developers a free rein to do what they please. The idea that they could get unlimited variances to develop on open space and wetlands is unacceptable. The House Rules Committee should not advance HB 3414 if Section 2 (variances) remains part of the bill. Our environment is what makes Oregon special. This bill would negatively impact that. There are other ways to solve the housing crisis without putting developers in charge!
