Measure: HB3414

Several major concerns are evident with HB 3414 and need be addressed.

- 1) Cost savings may not be passed to future residents
- 2) This pre-empts authorities of local governments and therefore restricts voices of citizens
- 3) Natural resources are not properly protected
- 4) Several additional concerns are referenced in this Letter To The Editor:

This appears to be either a power grab or a hastily crafted measure and should be defeated.
