

Submitter: Donald Marinello

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: SB422

Please pass this law on behalf of motorcycle safety. As a life long motorcyclist, I fully support safe lane splitting. Not only does it keep motorcyclists much safer from a rear end collision during heavy traffic, it also relieves traffic congestion and gets everyone home faster and safer. Lane splitting offers a common sense solution to traffic congestion and might encourage more people to commute on motorcycles which will further diminish congestion.
