

Submitter: Bradley Wilson
On Behalf Of:
Committee: Joint Committee On Transportation
Measure: SB422

Hello,

Despite not living in Oregon, I do visit frequently on motorcycle, so I wanted to write in with my support for the lane sharing bill. Studies have shown that lane sharing provides two primary benefits. For riders, it is safer as it tends to prevent accidents caused by drivers rear-ending them because of reduced visibility (where drivers expect just cars, and from directly behind a motorcycle it can be easy to miss them). For everyone, it can help alleviate traffic congestion on busy roads, especially during all-important rush hour stop & go traffic.

Thank you for your time.
