

Submitter: Alexander Clarke

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: SB422

I support this bill. Motorcycle lane splitting and filtering has been proven to help protect motorcyclists while lane splitting properly. Specifically in large cities like Portland, if this bill passes, more people would have motivation to commute on motorcycles taking up less space on the road and lessening congestion. Currently there is no motivation to commute by bike if you have to be stuck in traffic with everyone else anyhow. Thank you.
