

Submitter: Joanne Carlson

On Behalf Of:

Committee: House Committee On Rules

Measure: HB3414

Please vote no on measure 3414. This is a terrible bill. As currently proposed this bill would allow developers to bypass city codes and processes in place to protect our built and natural resource, including regulations governing the alteration of landmark properties and new construction in designated districts, without demanding any increased density or level of affordability.

Please do not pass this bill as is.
