Committee: House Committee On Rules

Measure: HB3414

I live in Portland. Our environmental laws protect the health of the citizens and the ecosystem. We need to keep these protections in place, not roll them back or suspend them in the name of "housing". Stand up for the developers whose bottom line is their own profits. We all suffer when the environment we live in is denigrated. We need trees to help combat the detrimental effects of climate change. Vote NO on HB 3414.
