

Submitter: Michelle Colmus

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: SB422

Lane sharing is the upgrade in our state that we need to improving rider safety and better use of the road for commuting. Having rode most of my riding career in California. I have had to use my acquired skill sets from knowing how to split lanes more often than I should here in Oregon to avoid being hit by distracted drivers. I would much prefer to have another "out" to save myself from harm legally. Please support this bill.
