

Submitter: Jose Carrasco

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: SB422

I think this is a great measure because it would cut motorcyclist time on commute which is one of the reasons people by motorcycles. I don't think there are much more safety concerns that motorcyclist don't already encounter on a daily basis. Also we have to look at how well it has worked in other states. From someone that has ridden in a state where this is allowed I think this would be a great idea and law.
