

Submitter: David Joseh
On Behalf Of:
Committee: Joint Committee On Transportation
Measure: SB422

Hello,

Lane splitting would help make the roads safer for motorcyclists as well as decrease traffic congestion.

My life is at risk when I am in between two stopped vehicles on a highway.

I cannot afford a different type of transit. Motorcycling is a year round necessity for me. Ensuring equity, inclusion, and diversity would ensure the safest possible traffic laws including all types of transit modes.
