Measure: HB3414

HB 3414 appears to be a thinly disguised gift to developers to run roughshod over local ordinances and control. Do we want our state to be a draconian authoritarian state? I could see maybe, MAYBE, it might have some value if it resulted in the greater good. But this bill's promise of "affordable housing" is pure window dressing and will not result in its stated goal of providing much needed housing. I think most sensible voters will realize this and will come down hard on the bill's sponsors come election day.
