

Submitter: Helen Ost
On Behalf Of:
Committee: Joint Committee On Transportation
Measure: HB3382

Please vote no on HB 3382. Fast Tracking is not the answer since it will create more problems later. Extensive dredging and channel modification has major effects. It will harm the health of some of the most ecologically important and sensitive waterways in our state. It will even harm the oyster aquaculture, crabbing and fishing. That will harm our important local coastal economies.
Thank you for your work during this legislative session.
