

Submitter: Fiona Carey

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB3382

I oppose HB 3382 because it threatens sensitive coastal habitats. Ecosystems like estuaries are critical for sequestering carbon and withstanding the effects of climate change. This bill is at odds with Oregon's climate goals and would lead to devastating habitat loss along our beloved Coast. Please vote no on HB 3382.

Thanks,
Fiona Carey
