

Submitter: Judith Mosteller
On Behalf Of:
Committee: House Committee On Rules
Measure: SB166

This bill appears to be an attempt to obstruct citizens and organizations that promote election transparency from being able to obtain public records like voter rolls or any other election information making it so We The People have no means to verify our elections and hold the government and their employees accountable. If this bill passes it very well could be the final end to fair and transparent elections in Oregon. Our voter registration rolls need to be cleaned up and kept clean so that the integrity of our elections is protected. I OPPOSE SB 166 for the reasons stated above. It may sound reasonable on the surface, but going a bit deeper, I can see some real problems. Please vote NO on SB 166.

Thank you,
