

Submitter: Russell Kautz
On Behalf Of:
Committee: House Committee On Rules
Measure: SB166

Please vote NO on SB166. We the people have the right to the public record of Cast Vote Records! If there are any identifying marks on the ballots, whose fault is this? Not allowing access to these ballots is a total lack of transparency and only signals to we the people that the Secretary of State does not want us to know how our ballots are counted. This has to change. Election laws constitutionally must come from our legislature, not the executive branch! And you wonder why many Oregonians truly believe there is no election integrity using the current system of mail-in ballots and black box tabulators. You cannot prove that our ballots are counted the way we marked them, because you won't allow us to see the Cast Vote Record.
