Committee: Joint Committee On Transportation
Measure: HB3382

Thank you for your work during this year's session. I am writing to express that I oppose to the Port Dredging Exemption Bill, HB 3382. HB 3382 allows major ports in Oregon to bypass key land use and environmental rules for the sake of fast-tracking major dredging and channel modification. This bill sets a risky precedent, and puts in danger the health of some of the most ecologically important and sensitive waterways in our state. It would also have a negative impact on local coastal economies including oyster aquaculture, crabbing, and fishing. Please vote no on HB 3382.

Thank you for your time and attention to this urgent matter.
