

Submitter: Dan Marcisz  
On Behalf Of: Oregon Hunting and Fishing Community  
Committee: House Committee On Rules  
Measure: HB3086

Since this is a wildlife agency it makes sense to follow the wildlife population in forming its makeup. River Systems are a better model to base wildlife decisions on rather than the human population base. This will also provide a more diverse representation of Oregon. I'm a 74 year resident of this State. It just makes sense to me.
