

Submitter: John Raasch
On Behalf Of:
Committee: House Committee On Rules
Measure: HB3086

Good Evening,

I'm writing in support of H.B 3086 with the -7 option.

I would like to see the membership of ODFW's Commission changed to better represent the values and opinions of all of Oregon. It feels like over the past 15 years the Commission has transitioned to primarily representing the values, perspectives and priorities of the urban population centers, while ignoring the desires and perspective of rural Oregonians, hunters, fishermen and trappers.

I see H.B. 3086 as a small step towards restoring balance in fish and wildlife management in Oregon and representing the voices of all of Oregon.

Thank You,

John
