"[HB 3221 (-2)] STAFF MEASURE SUMMARY

House Committee on Revenue"

Information concerning the Oregon Department of Education can be reviewed here:

Let us face reality...Oregon Public Schools have been systematically degraded by the Oregon Legislature's sheer mismanagement or nonchalant disregard to properly fund all aspects of; providing the required infrastructure, maintenance, population of well-paid teachers, councilors and other required educational resources.

Congested classrooms, fewer Teachers, Counselors and breakdowns in "Individual Education Program (IEP)" have surpassed emergency conditions and needs to be immediately remedied. For the past several years, there are televised cries for donations to provide "school supplies."

The incorporation of "Woke indoctrination" of children into Climate Change, Critical Race Theory, Black Lives Matter, Gender transition issues and The 1619 Project dramatically erodes and warps children's educational needs and drains financial resources in Oregon's Public Schools.

"The Woke indoctrination" should be immediately eliminated. The Legislature should demand performance and financial audits of the Oregon Public Schools.

[HB 3221 (-2)] does not even attain "Band-aid" status to address the financial needs of Oregon's Public Schools.

***Raising Property Taxes is an asinine remedy. The use of "Lottery Money" should be immediately reported as to dispersal and reliance upon all Oregon Department and Programs so funded. Seizures of Tax "Kickers" for school funding should cease for this practice is inflationary and business unfriendly.

Lottery Money should be fully utilized even at the expense of shutting down other Lottery funded programs.

Construct a "Restricted Use Fund" to insure adequate and permanent funding for Oregon's schools.

Below are pending Legislation concerning schools and education. There are others.
