I strongly oppose this. Here in Oregon, we are already heavily taxed and there are already discussions of raising the cost of our water, public transit, adding tolls, and city permitting for building is already so high. This state finds every way they can to nickle and dime the citizens with little to no oversight. There is already a surplus, and they have demonstrated a continual mismanagement of tax dollar funds. These excess funds need to be returned to the citizens. This money belongs to the people not to the government.
