

Submitter: TROY SPENCE

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure: SJR26

Vote NO on SJR26

Excess funds that are taken from taxpayers belongs back with the taxpayers who are already financially insolvent due to the very same people making the decisions "for us" with this bill. Just today it was released US credit card debt has surpassed \$1 trillion for the first time in history. An average of \$10k per household, which is more than many peoples savings.

The fact that the state and federal government continues to take in more money every year creating more ways to tax us and still comes up further in the red is a testament to poor leadership and financial management.

NO on SJR26. Oregonians deserve their hard earned money where they best know how to use it, not politicians funding special interests.
