On Behalf Of:  
Committee: Senate Committee On Judiciary  
Measure: HB2279

Another great bill sponsored in Senate Judiciary  
WELL HOWDY...

In 2015 SB 941 was created in part to stop deaths by guns.

I remember someone said 81% of gun deaths were suicide (shocking # to me).

But dozens of gun bills later we have a Bill to make suicide convenient to all comers,  
from any where's ?

HOT DANG... I was beginning to think a trip to Portland was a venture in assisted  
suicide, (am I wrong?)

My guess is suicide is a end of life, personal decision you or your Commanding  
officer made for you ?

Now we want to legislate it too ?

HB 2279... must be a sign of the times here in Or-eeh-gun.
