January 25, 2024

Dear Interim Committee on Economic Development and Small Business,

On behalf of the City of Oregon City, I am writing today to express our organization's strong support for House Bill 4101, allowing businesses registering with the Oregon Secretary of State's office to voluntarily attest to their ethnicity, gender, and veteran status.

Currently, there is no centralized location to identify the number and performance of businesses in Oregon based on their ethnicity, gender, or veteran status. Knowing this information is as critical as ever, given the recent **disparity study** published by the Department of Administrative Services that found Oregon is severely underutilizing businesses owned by certain culturally specific populations and veterans in public procurement.

The Oregon Secretary of State business registry provides a perfect location for businesses to provide their demographic information voluntarily. In addition to creating a central hub to understand who is operating business in Oregon, House Bill 4101 will further allow the Secretary of State's office to securely share gathered information with state agencies and community-based organizations dedicated to advancing the economic development of all businesses operating in Oregon.

Fully understanding Oregon's business landscape requires us to know who is conducting business in Oregon and where disparities in economic opportunity are most prevalent. Bill 4101 will create a system for Oregon to expand opportunities for economic development and greater equality in our state's procurement system.

For these reasons, I hope you too will support House Bill 4101.

Thank you,

Sincerely Yours,

Denyse C. McGriff
Mayor
