

RE: Please Support HB4121

Chair Kropf and Honorable members of House Committee on Judiciary
I am writing today to ask that you support HB4121 Sec 12, 15-20

My name is Jerry Stroud owner of Conscious Cultivators
Located in Junction City. I have a family owned and
operated Cannabis business that has been in operation
for 5 years. We have been holding on hoping for a
better business environment because failure is not an
option. We are 100% invested and stand to lose
everything I have worked all my life to gain
I am 68 years old would like to retire
and pass the farm to my family. At this point
I would only be able to pass on debt.

The current Cannabis Market Chaos caused by
over licensing has made it impossible to
be competitive and successful. I am a native
Oregonian born in Klamath Falls and raised in
Seaside and I was excited about Oregon
being a leader in Quality Cannabis production only
to see it diminished by too many outside players
being licensed.

The "Cannabis Licensing Cap and Moratorium" proposed
in Section 15-20 of HB4121 will give Oregon Cannabis
Market time to stabilize and thrive as a top producer.
Thank you
Jerry Stroud, Conscious Cultivators, 541-514-9486
