Measure: HB4045

Please support HB4045. As it stands now, district attorneys (DAs) do not enjoy the same (police) retirement benefits as assistant district attorneys (ADAs). Which means that hard working DAs like ours will have to work longer than their staff before they can retire. This is inequitable, and makes a very difficult job truly thankless. Why would anyone be willing to run for the office of DA under these circumstances?

Thank you for your consideration.
