

Submitter: Donna Bleiler
On Behalf Of:
Committee: House Committee On Education
Measure: HB4078

I strongly OPPOSE HB 4078

The aim is more questionable than what the bill reads. The Secretary of State has piloted a spying program contracted with a third party vendor. This bill authorizes contracting with a public or private entity for the development of the method. It creates an advisory committee to consider alignment with intersecting programs. Intersecting with Secretary of State?

Parents assume personal private information stays within the school, this bill has no privacy of information guards or limited use of private information by OED.
