

Submitter: Jorge Sanchez Bautista

On Behalf Of:

Committee: House Committee On Early Childhood and Human Services

Measure: HB4085

Dear Committee Members,

As the son of immigrant parents, we have never been given support of any kind to get to the place that we are now. Only from family. Some folks though who come to this country, don't have family and they are all alone. The United States is supposed to be the land of free and opportunity, but never has been with it's dark history. This is not only a way to help immigrants and refugees start in a new place, but changes the image of the United States. An image that they support people of color and not turn them away. The government's job is to support and care for it's people that live on this land. Immigrants go through so much pain and change. The last thing they must think about it money and funds. What everyone should worry about is their family and loved ones. Not taxes, rent, bills, etc. The government should be funding necessities that folks need. I implore you to consider this piece of legislation.

Sincerely,
Jorge
