

Thank you, Representative Helm, for introducing HB 4818.

Oregon faces a crisis if we do not take serious action to protect wildlife. I strongly support wildlife crossings in high hazard zones. I also encourage educating the public about wildlife as a significant resource for the region. We are all in this together, whether we're a wolf, a beetle, or a Dungeness crab. Humans cannot survive if we do not protect our environment and the wildlife within it.

Thank you for this opportunity to support HB 4818.
