

Submitter: Eric Hill

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB1503

No more money to the Oregon Health Authority please. This seems like a poorly disguised method to further redact the rights of law-abiding citizens in terms of gun ownership. It is not right to fill this committee with all anti-gun activists. Why are no supporters of safe and responsible gun owners on this committee? That seems to prove what this is really about.
