

Submitter: Bob Repine

On Behalf Of: Oregon Caves and Chateau

Committee: House Committee On Economic Development and Small Business

Measure: HB4124

Chair and committee members I would like to add my support to HB 4124. I have been working with the Oregon Caves and Chateau Board for the past year on finding ways to advance the needed repairs to the Chateau. As a former Legislative member representing Josephine County, I understand the importance of preserving Oregon's History and how that effort helps keep small communities viable and brings and maintains job opportunities for the area. When the Chateau is restored both full time and seasonal jobs will be established adding to the economic vitality of the Illinois Valley. I ask for your consideration and support of HB 4124.
