

Submitter: Stephen Nelson

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB1503

SB 1503 is yet another waste of Oregon citizens' money. Rather than address the real problem of mental health, SB 1503 will squander money on a "task force" which will return a pre-ordained list of anti-Second Amendment measures that will do nothing to help the problem. When will you realize the problem is not the tool but the human being using it. When the parents begin to teach their children that it is not acceptable to kill yourself or your fellow humans, then we can begin to slow this evil.
