Water

Measure: HB4060

Dear House Committee Members,

Keeping farm lands sustainable working should be a top priority for all of us. I support HB4060 because it provides Oregon farmers with funds to create and maintain conservation easements. This allows farmers to produce food while maintaining ecological balance both of which are critical to long term success. HB4060 will also help older farmers transition ownership to the next generation of farmers.

Please vote in support of HB4060.

Thank you,
Cheryl Conway
