Measure: SB1583

I oppose this bill for Oregon Education. I work in a high school and there is no need to include the LGBTQIA's agenda to our students. Let's get back to basics! Our students are failing at astounding rates. This does nothing to help our students. There is a time and place for this but not in our text books. This is also an added burden on school districts. Stop pushing this. You will continue to see school enrollment drop in public school.
