

Submitter: Margaret Jefferson

On Behalf
Of:

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure: HB4083

Hello,

I strongly favor HB4083 which lays out a plan for Oregon to cease investing in the coal industry.

Why should our state continue supporting an industry which contributes to the deaths of millions of people every year and will result in the destruction of our biosphere?

We need to face the catastrophic reality of climate change and find ways to contribute to a sustainable future.

Sincerely,
Meg Jefferson
