

Submitter: Garret Law

On Behalf Of:

Committee: House Committee On Economic Development and Small Business

Measure: HB4124

Having the original doors and hardware in an historic building is a real plus and if they can be restored, they should be done at any cost. My business restored the original doors at the Vista House at Crown Point back in about 1999. Then the whole building was restored. My door restoration did not have to be improved in the 2004 restoration and the doors look great to this date.
