State Senate District 24

Business IDA opened in 2023

“I applied for the IDA program in hope to get help to support my new Adult Care facility and get an access to the source of information about business operation and training for the business owners.

The IDA program helped me, as business owner, in different ways - I got a financial training, I finished business plan writing, I got the financial support for the new business.

I got support in business operation - it means stability for my family and success for the business.”
