Measure: HB4132

I oppose anything that stops the people from enjoying the natural treasures that surround us. Like the Illegal Boat Tax and Trailer Tax and Fishing Tax and Duck Stamp Tax and Salmon Tax and Steelhead Tax Gas Tax an an an how many more I can't remember just now is simply shutting down poor peoples access to natural sustainable simple fishing. This has nothing to do with helping the ecology its simply communistic shut down of our access to food. Its almost as if all the eco terrorist groups have been taken over by Communists that simply want to end the USA. That can't be true can it ? Well maybe it is because ole Jimmy Carter changed the laws so the Japanese and Chinese can come into USA waters and take as many Salmon as the want and then you continue to tax us to death for Salmon Enhancement. The Oregon State Fish and Wildlife and Department of State Lands is a joke everyone native to Oregon knows these agencies are corrupt as hell. Why don't you people spend money on researching and getting rid of corrupt Agencies that do more harm than good ? O ya because you are one and together you will ruin the USA just as fast as you can. Karma will come to you.
