

Submitter: Thomas Giles  
On Behalf Of:  
Committee: Senate Committee On Judiciary  
Measure: SB1503

We are legal gun owners and voters. I have been watching documentaries over the week during Black history month about the 369 in WW1 and the 761 all black tank battalion WW2. These brave men came home heroes after being instrumental in the effort to keep us free. Many of them were hung some were beaten, one soldier had his eyes gouged out over just questioning a bus driver. The 761 tank battalion were the original black panthers. they could not vote in places without standing up. We have a history of oppression please don't let our rights be eroded.

Please think back to the civil rights movement where the people had no power. I believe your heart is in the right place, but I encourage you to vote no on this. there are laws on the books already and enforcing them would be a better start.  
Thank you for reading this
