Measure: HB4080

As a lifelong resident of Roseburg, Oregon I don't want the Oregon landscape marred by offshore wind turbines. As a student I learned about where we live and our proximity to The Cascadia Subduction Zone located only 70-100 miles off the Pacific coast shoreline. [www.oregon.gov>oem>hazardprep](http://www.oregon.gov/oem/hazardprep) shows 43 earthquakes in the last 10,000 years within this fault.

I oppose HB4080
