

Submitter: Hailey Wrobel

On Behalf
Of:

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure: HB4083

Thank you for the opportunity to comment in support of HB 4083.

I'm a concerned citizen and mother of a small child. I'm using my voice to support this bill because I'm concerned about her future and the effects of climate change. I believe this bill is one way we as Oregonians can be advocates for our climate as well as our citizens who rely on smart investments in the PERS system.

I strongly support HB 4083 — the COAL Act — because I think it's critically important that we protect the fiscal viability of Oregon's investments. More than 400,000 Oregonians are PERS members. They and their families depend on their pensions. But their pensions are at risk when the Treasury invests in coal, which is not a good investment for the long term. Since California began removing coal from its CalPERS portfolio, it has gained an estimated \$598 million in returns. Oregon, on the other hand, has foregone \$340 million in returns, according to an analysis by Divest Oregon. As the former Deputy Comptroller of New York State said, "Divestment is a defensive tool employed to protect investors from the loss of value – losses as certain as climate change's global reach."

We need the Oregon Treasury to protect PERS and the rest of the Treasury's investments as we transition towards a green economy and I believe this bill is a small step forward. HB 4083 is right-sized for the short session: the provisions of the act are specific, achievable and measurable.

It is important we act NOW - our future and the future of our children depend on it.

Please vote the COAL Act out of committee. Thank you for your support of HB 4083.

Oregon needs to be a leader.

Sincerely,

Hailey Wrobel, Hillsboro, House District 29
