

Submitter: Amanda Rain  
On Behalf Of: HB4123  
Committee: House Committee On Judiciary  
Measure: HB4123

This bill is an essential piece of legislation to help address the critical shortage of qualified SANE and SAE examiners who can meet the unique needs of sexual assault victims and increase the possibility of holding offenders accountable through the proper collection of forensic evidence. I urge you to support the passage of HB 4123. Thank you for your work on behalf of Oregonians.
