

Submitter: Pete Martinez
On Behalf Of: Law abiding gun owners
Committee: Senate Committee On Judiciary
Measure: SB1503

As tragic as suicide is. Removing guns from law abiding citizens is not the answer. Proponents on this type of legislation use agenda based statistics and testimony to make their decisions. It is well known that the "numbers" are bent, and often include (for example) 18-20 year olds in the statistics of "children". Anyone bent on committing suicide will find a way. The same way that anyone bent on violence will use any means possible if guns are not available.
