

Submitter: William Willingham

On Behalf Of:

Committee: House Committee On Economic Development and Small Business

Measure: HB4124

This measure is critical to support of the various non-profit arts organization in the state. The effects of the Covid pandemic have been devastating to the earned income of performing arts organizations, especially. Historic preservation efforts have also been adversely affected by shortfalls in funding due to the falloff of support during the pandemic and support to continue protecting the historically significantly built environment is necessary for communities state-wide.
