

Submitter: Royce Pierce
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB1503

This proposed panel if you will is not only unnessasary but a waste of state dollars. Additionally only anti 2nd ammendmant supporters are slated to sit upon thus panel. The DOJ studies that have long tracked and examined these very issues have and are availible. These numbers represent decades of data and have already been paid for with tax dollars. To reintetate only one side of the issue is being represented of course you know this is wrong. Thank you.
