

Submitter: Diana Richardson

On Behalf  
Of:

Committee: House Committee On Emergency Management, General  
Government, and Veterans

Measure: HB4083

I hereby register my SUPPORT of the COAL Bill. The State has a fiduciary responsibility to the citizens of Oregon. At this point, it is fiscally irresponsible to continue to invest in coal which has shown to be a Loser in the market. It is an injustice to the people of Oregon and in particular to the people who are invested in PERS to invest in a commodity which is antithetical to their interests, not only in terms on financial return, but even primarily in terms of the health and wellbeing of members and all Oregonians as the catastrophic effects of Global Climate Destabilization are Undeniable in our daily lives and doubtless, into all our tomorrows.

Please join me in supporting this COAL Bill and be proud of your accomplishments as a responsible citizen of integrity.
