Committee: Senate Committee On Education

Measure: SB1583

Society only moves forward when our youth are exposed to a wide spectrum of education, unvarnished history and the realities of today's world, not on legislators personal beliefs. It is ludicrous in my opinion that the legislators of today had such an opportunity, but would attempt to deny the same opportunity to the youth of today. Parents can and should be involved in their children's education, but let teachers teach and educators, educate. Absolutely pass this into law.
