

Submitter: Wright Kira

On Behalf Of:

Committee: House Committee On Education

Measure: HB4078

As a speech-language pathologist in the public schools, I support this measure and any other measure that funds the infrastructure and documentations kids and staff need to do the actual work of education. Documentation is of utmost importance, but should not pull our most skilled educators away from our neediest students. Allowing paperwork to transfer more seamlessly means that services and support for students will transfer with less 'down time' in between moves, and fewer hours spent copying and recreating paperwork. This is a change that will allow specialists and special educators to spend more of their time on students.
